Entered as Second-Class Matter, Aug. 19, 1902 at the Post Office at Chicago, Illinois, under Act of March 8, 1979.

TUBERCULOSIS BEING WIPED OUT.

One Institution or Organization Being Established Every Day.

During the year that has passed since the International Congress on Tuberculosis met at Washington, one and dancing every Wednesday, Thurs sented it with a Seismograph Observinstitution or organization for the treatment or prevention of tuberculosis has been established every day. Sundays and holidays included, according to a bulletin of the National Association for the Study and Preven tion of Tuberculosis. Fifteen new beds in hospitals or sanatoria have been provided also for every day of

A year ago the rate of increase was one organization or institution every other day, only one-half as fast as now. Less than a year ago there were 40 consumptives for every hospital bed provided. To-day the number has been reduced to 30. Nearly 20,000 beds are now provided in in stitutions for the treatment of consumption, an increase of over 5,500 The number of special tuberculosis Band. dispensaries in the United States has more than doubled the number of creased 68 per cent, and the number of hospitals and sanatoria 43 per cent.

In one branch of anti-tuberculosis work, particularly emphasized by the International Congress, a signal advance has been made, that is, in the provision of hospital accommodations for advanced cases. In all parts of the country, state and municipal au. Johnson, the Champion, last Saturday thorities have been urged to provide night, was a huge success. The short hospitals for dangerous cases of talks by Pres. Moseley, Hon. E. H. tuberculosis, with the result that over Wright, Maj. R. R. Jackson were per-1,000 bels have been established in fect gems and the response by Jack the past year. At the present time Johnson a regular knock out as Jack there are, however, only 6,000 beds, Johnson covered himself with glory and 75,000 advanced cases which when he said that the ambition of his ought to be in hospitals. Fully 75,000 life had been accomplished in the others could be treated at home, but purchase of a home for his old it would be safer for the community mother. to segregate them in institutions. Every advanced case of tuberculosis is a center from which the disease spreads, and unless the patient is to the delight of those present and taught how to be careful in his everybody after his sumptuous repast habits, and unless he has the proper prepared by their prince of epicurean, home surroundings, he should be in Rufus Estes went home in the wee a hospital, where he will not be a small hours of the morning grateful menace to others.

The National Association for the Study and Prevention of Tuberculosis declares that at least 70,000 more beds in hospitals are needed for advanced cases of consumption. Until these are provided, tuberculosis cannot be wiped out. If everybody in the United States gave \$5 to provide hospitals for the dangerous consump tives, sufficient funds would be procured to destroy forever the threat of tuberculosis from this country.

The language they are passing round Like "stung" and "Oh, you kid!" sems not to ring with sense profound As old time phrases did. The "rah-rah" people seem to like The racket which they raise. But modern dictum does not strike The peace of other days.

I wish that they might hear the way. When some one stood aloof And proud, some friend in accents gay Would cry, "Come off the roof!" And when some lad appeared with fuzz Upon his ilp we'd shout With real wit, "Say, sonny, does Your mother know you're out?"

The cry "Whoa, Emma!" is unheard; Likewise "Pull down your vest!" No weary soul by anguish stirred Excinims, "Give us a rest!" The rapid times through which we whis Compel us to agree The art of conversation is Not what it used to be.

Scarcity of Leather. When the scarcity of bides and skins

Drs. know that the world is being scoured A. W. Williams, A. W. Springs, A. W. in all corners for all available skins and hides. More races are constantly becoming civilized, and the increase of our hide and skin supply is not in proportion to that of the human race. The amount of leather used in the husband by having a number of his son Mrs. A. M. Smith, E. Lindsay manufacture of novelties of all kinds has increased to a great extent within a few years, says the Shoe Retailer. but in no line has the use of leather broadened so extensively as in automobile manufacture. Any one who is at all familiar with an automobile knows that there is a considerable amount of leather used in its construction, in unholstery and otherwise. This means a large draft on the leather market. which is perbass more noticeable in the high price of spready steers, the hides of which are extensively used

for that purpose. MRS. LAYTON'S ABLE REPORT.

Head Worker For Order of St. Luke at Washington Retires.

Mrs Julia Mason Layton has retired as District of Columbia deputy for the Order of St. Luke and has been succeeded by Mrs. Bessie Anderson, Rev. A. C. Garner, pastor of Plymouth Congregational church, was made associate deputy. According to the ably prepared report of Mrs. Layton, St. Luke has thirty-two councils in the District. representing a membership of about 2,500. In the states the order claims a total of 30,000 members, and a large amount of real estate is held by them. Mrs. Anderson announces that a campaign for an increase in membership here is to be inaugurated. The head quarters of the order is in Richmond, Va., where the president, Mrs. Maggie L. Walker, conducts a bank and is the manager of a prosperous department store owned by the St. Lukes.
